**B. Other information**

**1. Overview of the important events that happened during the relevant term and their impact on the issuer's financial statement.**

During the revealed time period, there were no important events affecting the company's financial position.

Within the meeting of the Board of Directors from 07.11.2024, the Board of Directors members analysed the financial year result registered on 30.09.2024 and approved the interim financial statements prepared in accordance with the International Financial Reporting Standards adopted by the European Union under the Ministry of Finance Order No. 2844 of 12.12.2016.

The textile garments ensured during the analysed term a turnover of 25,301,712 lei, by 7,460,443 lei less the same period of the last year 2023, when we recorded 32,762,155 lei.

In its structure, the turnover was mainly accomplished by the sale of its own production, on 98% rate. The value of export sales in the amount of 25,004,243 lei represents 98.82% and the domestic sales in the amount of 297,469 lei represents 1.18% of the turnover.

During January - September 2024, the activity developed ended with a loss amounting (324,432) lei, then the same period of the last year, when profit amounting 2.027.838 lei was registered.

- The turnover registered on 30.09.2024 is 25,301,712 lei, by 22.77%, decreasing than the same period of the previous year, when the amount of 32,762,155 lei was registered.
- *The total volume of incomes* on 30.09.2024 was 24,458,177 lei, representing a decrease of 25.41% compared to the total incomes obtained during the same period of 2023, amounting 32,787,972 lei.
- *The total volume of expenses* is 24,782,609 lei and they decreased by 18.70% compared to the same period of 2023 year, when the amount of 30,484,486 lei was registered.
- *The exploitation incomes*, amounting 24,427,870 lei decreased on 30.09.2024 by 24.90% compared to the same period of the previous year, when we registered 32,526,070 lei, and the *exploitation expenses* amounting 24,393,379 lei decreased by 18.66% compared to 30.09.2023 when they amounted 29,988,868 lei.

The exploitation activity finished by a profit amounting 34,491 lei, despite the same period of 2023 year, finished by profit of 2,537,202 lei. In the total of exploitation incomes, the largest share is held by the production sold in the amount of 25,240,947 and at the exploitation expenses, the largest share is held by the personnel expenses, being in the amount of 11,888,090 lei, representing 48.74% of the total of exploitation expenses.

- *The expenses for the staff*, amounting 11,888,090 lei, increased by 8.79%, compared to the same period of the previous year and represents 46.99% of the turnover.
- *The financial incomes* amounting 30,307 lei result by the income from exchange rate differences and decreased the amount of 231,595 lei compared to the same period last year, when the amount of 261.902 lei was registered.
- *The financial expenses* amount 389,230 lei result by interest expenses, other financial expenses and decreased the amount of 106,388 lei compared to the same period of the previous year was recorded when the amount of 495,618 lei. Therefore, the financial result is loss amounting (358,923) lei, compared to the same period last year when we recorded loss amounting to (233,716) lei.

The company registers profit by the exploitation activity and loss of financial activity.

The net cash on September 30<sup>th</sup>, 2024 is recording a decrease to the amount of (236,554) lei compared to the same period of the previous year. On 30.09.2024 the average number of employees is 334 employees and has increased compared to the same period of 2023 when we recorded an average number of 333 employees.

## S.C. CONTED S.A.

### Individual interim financial statements on September 30, 2024, according to IFRS (all the amounts are in LEI, unless otherwise provided)

#### NOTES TO THE INDIVIDUAL INTERIM FINANCIAL STATEMENTS ACCORDING TO IFRS

##### NOTE 1. Reporting entity

S.C. Conted S.A. is a public limited liability company, with Romanian legal personality, established on indefinite term, organized and operating according to the status and based on the Limited liability company law no. 31/1990, as well as by the Law regarding the capital market no. 297/2004 and of Law no. 24/2017 on issuers of financial instruments and market operations. The company changed by reorganization, subject to Law 15/1990, from a republican industrial business.

The company has its registered office in the city of Dorohoi, str.1 Decembrie no. 8, Botosani County, Romania, zip code 715200, phone 0231610067, fax 0231610026, website [www.conted.ro](http://www.conted.ro), Sole Registration Code RO 622445, Trade Register Office registration number J07/107/1991.

S.C. CONTED S.A. Dorohoi is a high quality outdoor wear manufacturer, with an experience of over 50 years in the field of textile garments, as well as in the export manufacturing. The company had an ascending evolution, expanding its outlet, by agreements with foreign companies.

The share capital of the company is 2,284,360.06 lei, fully subscribed and paid up, divided in 239,702 nominal shares amounting 9.53 lei/share. The shares of the company are ordinary, nominal, un-substantiated, stressed by registration in the account, their record being maintained, according to law, by the Central Depository S.A. Bucharest. The shares are equal as value and grant equal rights to the shareholders for each share. The securities of the Company (shares) are registered and transacted on the standard category of shares of the Exchange Stock of Bucharest.

The main activity of S.C. CONTED S.A., according to the act of establishment, is the manufacture of other garments (excluding underwear) NACE code 1413.

The company doesn't own debentures, callable shares or other envelopes.

S.C. CONTED S.A. is managed by a Board of Directors, made of 3 members, elected and appointed by the General Assembly of Shareholders for 4 years, from 28.11.2022 to 28.11.2026.

The current Board of Directors has been elected within the Ordinary General Assembly of Shareholders from 28.11.2022. At the level of the Board of Directors a president was elected. The president of the Board of Directors is not a General Manager and nor the other members of the Board of Directors have executive positions within the company. The elected administrators are non-executive.

The Board of Directors has the following composition:

	Surname and first name	Position within Board of Directors
1.	S.C. LAGARDE Paris France	Administrator - Chairman
2.	El Turk Ezzedine	Administrator - Member
3.	El Turk Ana Maria	Administrator - Member

The interim financial statements according to the International Standards of Financial Reporting were concluded for the financial year ended on September 30, 2024.

The financial statements were approved by the Management Board at the meeting of on 07.11.2024.

##### NOTE 2. Conclusion bases

###### a. Statement of conformity

The financial statements were concluded in accordance with:

- The International Standards of Financial Reporting (IFRS) adopted by the European Union;
- Law 82 of December 24, 1991 of accountancy;
- Order no. 881 of June 25, 2012 regarding the application by the trading companies, whereof securities are allowed to trading on a regulated market of the International Standards of Financial Reporting;
- Order no. 2844 of December 12, 2016 for the approval of Accounting Regulations according to the International Standards of financial reporting;

The transition date to International Financial Reporting Standards has been January 1<sup>st</sup> 2012.

**NOTES TO THE INDIVIDUAL INTERIM FINANCIAL STATEMENTS ACCORDING TO IFRS**

**NOTE 2. Conclusion bases (continuation)**

**b. Evaluation bases**

The financial statements were concluded relying on the historical cost, excepting the buildings, landscaping (special constructions belonging to the land) and lands that are evaluated at the fair value. These financial statements were concluded based upon the continuity principle of activity, which supposes that the company is normally continuing its activity, without entering into liquidation or significant decrease of activity.

**c. Operational and presentation currency**

These financial statements are expressed in lei, this being, too, the operational currency of the Company. All the financial information is expressed in lei, by rounding, without decimals.

**d. Use of forecasts and professional reasoning**

The preparation of financial statements in accordance with IFRS adopted by the European Union supposes from the management, the use of forecasts and assumptions that affect the application of accounting policies, as well as the reported value of assets, debts, incomes and expenses.

The forecasts and their related assessments rely on historical data and other factors considered as eloquent under the given circumstances, and the result of these factors constitutes the base of assessments used for the establishment of accounting value of assets and liabilities wherefore there are no other available evaluation sources. The effective results may be different from the foreseen values.

The forecasts and assessments are periodically revised. The revisions of accounting forecasts are admitted during the period when the forecast is reviewed, if the revision only affects that period or within the current period and further periods, if the revision both affects the current period and the further periods. The effect of change, corresponding to the current period is admitted as income or expense during the current period. If applicable, the effect over the further periods is admitted as income or expense during those further periods.

The management of company considers that the possible differences to these forecasts would not significantly influence the financial statements in the near future.

The forecasts and assessments are especially used for depreciation adjustments of fixed assets, forecast of the useful life term of an amortizable asset, for the depreciation adjustment of receivables, for provisions, for the admission of assets regarding deferred interest. According to IAS 36, both the intangible assets and the tangible assets are analyzed in order to identify whether they present depreciation indexes or not.

If the net accounting value of an asset is higher than its recoverable value, a loss by depreciation is admitted to decrease the net accounting value of the relevant asset to the recoverable value level. If the admission reasons of the loss by depreciation disappear during the further periods, the net accounting value of the asset is adjusted up to the net accounting value level, which would have been established if no loss by depreciation was admitted.

The evaluation for the depreciation of receivables is individually issued and relies on the best forecast of the management, regarding the current value of cash flows that is foreseen to be received. The company reviews its trading receivables and other receivables at each date of the financial position, in order to assess whether it must register in the statement of comprehensive income, value depreciation.

Especially the professional reasoning of the management is necessary for the estimation of value and for the coordination of further treasury flows when the depreciation loss is established. These forecasts rely on assumptions regarding multiple factors, and the real results may be different, leading to further changes of adjustments.

The assets regarding deferred tax are admitted for tax losses, as far as it is on the cards that a taxable profit whereby the losses should be able to be covered exists. The application of the professional reasoning is necessary for the establishment of the value of assets regarding the deferred tax that may admitted, based upon the probability regarding the period and level of the further taxable profit, as well as the further tax planning further strategies.

**NOTE 2. Conclusion bases (continuation)**

**e. The initial application of new and revised standards**

The following amendments brought to the existing standards and interpretations issued by the International Accounting Standards Board (IASB) and adopted by the European Union are enforceable for the current period:

- **Amendments to IAS 1 "Presentation of financial statements":**
  - **Classification of liabilities as current or non-current date** (issued on January 23, 2020, effective for annual periods beginning on or after January 1, 2024)
  - **Classification of liabilities as current or non-current** - postponement of the effective date (issued on July 15, 2020, effective for annual periods beginning on or after January 1, 2024)
  - **Fixed liabilities with agreements** (issued on October 31, 2022 effective for annual periods beginning on or after January 1, 2024)
- **Amendments to IFRS 16 "Leases" - Lease liabilities in a sale and leaseback** (issued on 22 September 2022, effective for annual periods beginning on or after 1 January 2024)
- **Amendments to IAS 7 „Statement of Cash Flows” and IFRS 7 „Financial Instruments” Disclosures: Supplier Financing Agreements** (issued on May 25, 2023, effective for annual periods beginning on or after January 1, 2024)

**f. Standards and interpretations issued by the IASB but not adopted by the EU**

Currently, the IFRS adopted by the EU do not show significant differences compared to the regulations adopted by the International Accountancy Standards Board (IASB) except the following standards, amendments brought to the existing standards and interpretations, that have not been approved by the EU on the date of the financial statements publishing (the entry into force dates mentioned below are entirely for the IFRS)

- **Amendments to IAS 21 „Effects of changes in foreign exchange rates”** (issued on August 15, 2023, effective for annual periods beginning on or after January 1, 2025)
- **Amendments to the Classification and Valuation of Financial Instruments (Amendments to IFRS 9 and IFRS 7)** (issued on 30 May 2024, effective for annual periods beginning on or after 1 January 2026)
- **IFRS 18 "Presentation and Presentation in Financial Statements"** (issued on April 9, 2024, effective for annual periods beginning on or after January 1, 2027)
- **IFRS 19 Subsidiaries without public responsibility: information2** (issued on 9 May 2024, effective for annual periods beginning on or after 1 January 2027)

The company estimates that the adoption of these standards, the amendments to the existing standards and the interpretations won't have a significant impact on the financial statements in the initial period of the adoption.

**g. Reporting by segments**

A segment is a distinct part of the Company, which supplies certain products or services (business segment) or supplies products and services in a certain geographic environment (geographic segment) and which is subjected to different risks and benefits than of the other segments.

From the point of view of the activity segments, the Company does not identify distinct parts from the point of view of risks and related benefits.

On 30 september 2024, the total sales, of 25,301,712 (2023: 32,762,155), the amount of 24,801,243 (2023: 32,341,299), represents the direct sales of products. From the total of direct sales of products the internal market, amounting 255,316 (2023: 55,169), represents 1.01% (2023: 0.17%).

With respect to the direct sales of products on the external market, amounting 24,545,927 (2023: 32,286,130), the amount of 5,708,619 (2023: 8,495,042), represents the sales to the main external client, at the rate 23.26% (2023: 26.31%), and the following client on the external market registered a rate of 18.35% (2023: 22.16%) sales amounting 4,504,112 (2023: 7,153,924).

**S.C. CONTED S.A.****Individual interim financial statements on September 30, 2024, according to IFRS  
(all the amounts are in LEI, unless otherwise provided)****NOTES TO THE INDIVIDUAL INTERIM FINANCIAL STATEMENTS ACCORDING TO IFRS****NOTE 2. Conclusion bases (continuation)**

The results by segments are the results reported to the Management Board and to the General Manager and include both the directly assigned items to a segment and those assigned by reasonable assignment bases.

The non-assigned items include debts, assets and debts for the profit interest, cash and cash equivalents. The assets shown for the activity segment especially include tangible assets and intangible assets, inventories and receivables, mainly excluding cash and current accounts at the banks.

The shown debts include the operational debts, excluding the delayed profit interest.

All the assets of the Company are situated in Romania. The activity of the Company develops in Romania.

The Company has a reporting segment - Manufacture of other clothing items (excluding the undergarments).

**h. Related parties**

A person or a close relative of the relevant person is considered related to a Company, if that person:

- It holds the control or the joint control over the Company;
- It has a significant influence over the Company; or
- it is a member of the personnel – key management

The key management personnel represents those persons who have the authority and responsibility of directly or indirectly planning, managing and controlling the activities of the Company, including any manager (executive or not) of entity. The transactions with the key personnel include exclusively the wage benefits granted to them, as described.

An entity is related to the Company if it meets either of the following conditions:

- The entity and the Company are members of the same group (which means that each parent company, subsidiary and subsidiary of the same group is related to the others);
- An entity is related entity or joint venture of the other entity (or related entity or joint venture of a member of the group whereto the other entity takes part);
- Both entities are joint ventures of the same third party;
- The entity is a plan of post-hiring benefits for the employees of reporting entity or of an entity related to the reporting entity. Provided that even the reporting entity represents itself such a plan, the sponsor employers are also related to the reporting entity;
- The entity is controlled or jointly controlled by a related person;

**NOTES TO THE INDIVIDUAL INTERIM FINANCIAL STATEMENTS ACCORDING TO IFRS****NOTE 3. Significant accounting policies**

- A related person who holds the control significantly influences the entity or is a member of the management key personnel of entity (or of the parent company of the entity).

The Company does not develop transactions with the above mentioned entities.

The accounting policies below were consequently applied to all the periods shown by these individual financial statements by the Company.

**a. Foreign currency****(i) Foreign currency transactions**

The Company transactions in a foreign currency are registered at the exchange rates communicated by the National Bank of Romania for the transaction date. The balances in foreign currency are converted in lei at the exchange rates communicated by NBR. The benefits and losses resulted by the discount of transactions in a foreign currency and by the conversion of monetary assets and debts, expressed in foreign currency are admitted by the profit and loss account, within the financial result.

The non-monetary assets and debts that are evaluated on the historical cost in a foreign currency are registered in lei at the exchange rate on the date of transaction. The non-monetary assets and debts expressed in a foreign currency that are evaluated at the fair value are registered in lei at the exchange rate of the date when the fair value was established. The conversion differences are shown by the global result.

The exchange rates of the main foreign currencies were as follows:

<b>CURRENCY</b>	<b>Rate of exchange 30.09.2024</b>	<b>Rate of exchange 01.01.2024</b>
<b>EUR</b>	<b>4.9756</b>	<b>4.9746</b>
<b>USD</b>	<b>4.4451</b>	<b>4.4958</b>

**b. Tangible assets****(i) Admission and evaluation**

The tangible assets are initially recognized on the procurement cost and are described on the net amounts of accumulated amortization and the loss by the accumulated depreciation. An item of tangible assets that meets the recognition conditions as asset must be evaluated at its cost.

The cost of a tangible asset is made of:

- a. its purchase price, including the import customs fees and the non-recoverable purchase fees, after the deduction of trade discounts and rebates;
- b. any costs that may be directly assigned to the bringing of asset to the place and state necessary for its operation;
- c. the initial estimate of the dismantling and removal costs of the restoration item of the place where it is located, a liability borne by the entity on the acquirement of investment.

For the accountancy of these costs, the provisions of IAS 37 "Provisions, contingent liabilities and contingent assets" are applied.

After recognition as an asset, a tangible assets item, plant and equipment is carried at its cost less any accumulated depreciation and any accumulated impairment losses. After recognition as an asset, a tangible asset item whereof just value may be reliably evaluated must be accounted at a revaluated amount, this being it's just amount, on the revaluation date less any accumulated amortization and any accumulated impairment loss for property, class „construction group" and „real estate investments" and carried at cost less depreciation and accumulated impairment adjustments for other groups of assets.

The revaluations must be made sufficiently regular to make sure that the accounting amount is not significantly different than the one that would have been established by the use of just amount at the end of reporting period. The rate of evaluations depends on the changes of just amount of revaluated tangible assets. Provided that the just amount of an asset is significantly different than the accounting amount, a new revaluation is required.

---

NOTES TO THE INDIVIDUAL INTERIM FINANCIAL STATEMENTS ACCORDING TO IFRS

**NOTE 3. Significant accounting policies (continuation)**

(ii) Further costs

The expense for repair or maintenance of fixed assets, issued for the recovery or maintenance of the value of these assets are admitted by the statement of global result, on the date of their performance, while the expense for the improvement of technical performances are capitalized and amortized during the rest of amortization term of the relevant fixed asset.

(iii) Amortization of tangible assets

The amortization is calculated for the cost depreciation. using the linear amortization method during the operation term of fixed assets.

The foreseen periods by the main groups of intangible assets are as follows:

<b>Asset</b>	<b>Years</b>
Buildings (constructions)	40 - 60
Technical installations and machines	8 - 12
Measurement, control and adjustment machines and installations	2 - 4
Transport facilities	4 - 6
Fitting, office automation, protective equipments, human and material assets	9 - 15

The amortization of an asset begins when it is available to use, i.e. when it is on the place and state necessary to be able to operate as the management wants.

The amortization of an assets ceases on the first date between the date when the asset is classified as held for sale (or included in a group intended to transfer, which is classified as held for the sale), in accordance with IFRS 5 and the date when the asset is to be recognized.

Consequently, the amortization does not cease when the asset is not used or is decommissioned, unless it is fully amortized. The lands and buildings are separable assets and are distinctly accounted, even when they are acquired together. The land is not amortized. The plot presented in the financial statements has been revised on 31.12.2013, according to International Valuation Standards, by Mr. Lațcu Nicolae expert appraiser, qualified professional ANEVAR member.

Provided that an accounting value of an asset is higher than the foreseen amount to be recovered, the asset is depreciated to the recoverable value. The cost of major investment and other further expenses are included in the accounting value of asset. The major investments are capitalized during the rest life time of the relevant asset.

**c. Intangible assets**

(i) Other intangible assets

Other intangible assets procured by the Company are shown on cost, less the cumulated amortization.

Further expenses regarding intangible assets are only capitalized when the further economic benefits incurred by the asset they refer to, increase. The expenses that don't meet these criteria are admitted as expense on their accomplishment.

(ii) Amortization of intangible assets

The amortization is admitted by the statement of comprehensive income relying on the linear method during the foreseen life time of intangible asset. The most of intangible assets registered by the Company are represented by informatics programs. These are linearly amortized for 3 years.

**d. Real estate investments**

A real estate investment is owned for the procurement of incomes by rents or for the increase of the capital value or both. Consequently, a real estate investment generates treasury flows that are, on a high extent, independent to other assets owned by an entity. The accounting policy of the Company, regarding further evaluation of real estate investments is based on the evaluation model on the fair value. The changes of the fair value are admitted by the statement of global result.

**NOTES TO THE INDIVIDUAL INTERIM FINANCIAL STATEMENTS ACCORDING TO IFRS**

**NOTE 3. Significant accounting policies (continuation)**

**e. Inventories**

The inventories are declared on the minimum value between cost and net realizable value. The cost is established by using the first-in, first-out method ("FIFO"). The cost of finite products and half-finished products include materials, direct labor, other direct costs and production expenses, related to production (based upon the exploitation activity). The possible net value is the foreseen sale price in the common transactions.

**f. Receivables and other similar assets**

Except for the derived financial instruments that are admitted on the fair value and of goods expressed by a foreign currency, which are translated on the closing exchange rate, receivables and other similar assets are shown on amortized cost. The trading receivables and debts reflect the relations between the business and other businesses, related to the supply and reception of assets and services.

The receivables relating to the state budget may be pointed in the accountancy.

The assessment sheet of receivables and debts in foreign currency and of those with discount in lei, depending on the rate of exchange of a foreign currency is made at the foreign currency rate of exchange communicated by National Bank of Romania, valid on the date of closing the financial year.

The trading receivables, which the company registers result by the services provided by it related to third parties, according to the object of activity. The trading receivables express the rights of company towards other natural or legal entities, established by the sales of assets, performance of works and service provision, wherefore it must receive a retail equivalent or a counter-provision.

**g. Cash and cash equivalent**

The banking accounts include: values to be cashed, like cheques and trading payments submitted to the banks, liquid assets in lei and foreign currency, cheques of the entity, short term banking credits, as well as the interests related to liquid assets and credits granted by the banks in the current accounts.

The operations concerning encashments and payments in foreign currency are registered in the accountancy at the rate of exchange, communicated by the National Bank of Romania, on the date of operation.

At the end of each reporting period, the liquid assets in foreign currency and other government bonds, like the government bonds in foreign currency, bills of credit and deposits in foreign currency are assessed at the rate of exchange of the exchange stock, communicated by the National Bank of Romania, on the last bank day of the relevant month. For the payment of duties to the providers, the trading company may require the opening of bills of credits at banks, in lei or in foreign currency, for them. For the conclusion of treasury flows statement, it is considered that the numeral is the cash of the cash office and the current banking accounts.

**h. Debts**

A debt is a current liability of the company, incurred by past events and wherefore discount, it is expected to result an output of resources that include economic benefits.

A debt is admitted in the accountancy and shown by the financial statements when it is probable that an output of economic benefit carrier resources will result by the payment of a current liability (probability) and when the value where to this discount will be issued may be credibly assessed (credibility). The company does not admit a debt when the contractual liabilities are paid or cancelled or expire. If the provided assets and services related to the current activities were not invoiced, but if the delivery was made and their value is available, the relevant liability is registered as debt (not as provision).

**i. Employees' benefits**

**(i) Established contribution plans**

During the normal activity. The Company makes payments to the state health, pension and unemployment funds for its employees, on the statutory installments. All the Company employees are members of the Romanian state pension plan. These costs are admitted by the statement of comprehensive income with the admission of salaries.

The Company is not employed in any independent pension system and, as consequence, it does not have any other liabilities in this respect.

**(ii) Short term benefits**

The short term benefits of employees include the salaries, premiums and contributions to the social insurances. The short term benefits of employees are admitted as expense when the services are provided.

**NOTES TO THE INDIVIDUAL INTERIM FINANCIAL STATEMENTS ACCORDING TO IFRS**

**NOTE 3. Significant accounting policies (continuation)**

**j. Provisions**

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, when to settle the obligation is likely to be required outflow affecting economic benefits will be required to settle the obligation and can be achieved when a good reliable estimate of the amount of the obligation.

Provisions for restructuring, litigation and other provisions for risks and charges are recognized when the Company has a present legal or constructive obligation arising from past events, when to settle the obligation is likely to be required outflow of resources and may be made a reliable estimate of the amount of the obligation needed. Restructuring provisions include direct costs arising from restructuring namely those that are necessarily entailed by the restructuring and are not related to the conduct of the company's business continues.

The company set up provisions for employee benefits in the short term holidays of outstanding. Determination of the amount of the allowance is based on estimates established payment obligation (given the manner of payment of leave).

**k. Incomes**

**(i) Sale of assets**

The income comprises the amount invoiced for the sale of the products exclusive of VAT, deductions or discounts. The incomes obtained by the Company are identified based on the sale of products.

The incomes obtained from the sale of assets must be acknowledged by the Company when all of the following conditions have been observed:

- The company transferred the significant risks and benefits related to the property right upon the assets to the buyer;
- The company does not manage the assets sold at the level at which it would have normally managed them in case it would have owned property upon them and does not hold actual control upon them;
- The value of the incomes can be assessed in a reliable manner;
- It is possible that the economic benefits associated to the transaction are generated for the entity; and
- The costs undertaken or which are to be undertaken in connection to the respective transaction can be assessed in a reliable manner.

The sale of the products is acknowledged at the moment at which significant risks and benefits are transferred to the client. This instance takes place when the company sold or delivered products to the client, and the client accepted the products, and the reimbursement of the respective amounts is reasonably provided.

**(ii) Service rendering**

Service rendering is acknowledged in the accounting year in which the services are rendered making reference to the conclusion of the transaction.

**(iii) Incomes generated from lease**

Income generated from lease is acknowledged within the accounting year in which they are rendered.

**l. Incomes and financial expenses**

The incomes and expenses related to the interests are acknowledged in the statement of comprehensive income through the effective interest rate method.

The incomes generated from dividends are acknowledged within the statement of comprehensive income as of the date at which the right to receive such incomes is established.

The differences related to the currency rate which occur when monetary elements are settled or when the monetary elements are converted at different currency rates as compared to the ones at which they were converted during the initial acknowledgement (during the period) or in the previous financial statements are acknowledged as losses or profits in the statement of comprehensive income in the period in which they occur.

**NOTE 3. Significant accounting policies (continuation)**

**m. Dividends and interests**

The interests must be acknowledged using the effective interest rate method. The incomes related to interests are acknowledged function of the time spent. If the received interests are related to the periods prior to the investment which is the carrier of the interest, only the ulterior interest is acknowledged as income and the other part diminishes the costs of the securities.

The royalties must be acknowledged based on the accrual accounting, in compliance with the goodwill of the related contract. When an uncertainty related to the collectability of a value which was already included in the incomes, the amount which cannot be collected or the amount of which collection ceased to be possible is acknowledged more like an expense than an adjustment of the value of the incomes initially acknowledged.

The incomes generated from dividends are acknowledged when the right of the shareholder to receive payment is established. The incomes generated from dividends are recorded at the gross value which includes the dividends' tax, which is acknowledged as a current expense in the period in which the distribution was approved.

The incomes generated from interests are acknowledged based on the accruals accounting, with reference to the non-reimbursed principal and the effective interest rate, that rate which updates the forecast future flows of the amounts which are to be received.

**n. Income tax**

The income tax related to the financial year comprises the current tax and the deferred tax. The income tax is acknowledged in the statement of comprehensive income or in other elements of the comprehensive income if the tax is related to the capital elements.

The current tax is the tax paid for the profit obtained during the current period, determined based on the percentages applied as of the date of the reporting and of all adjustments related to the previous periods. The current rate of the income tax in Romania amounts 16%.

The deferred tax is computed based on the tax rates which are expected to be applicable to the temporary differences upon the reactivation, based on the provisions of the regulations which are in force as of the date of reporting. The debts and the receivables with respect to the deferred tax are compensated only if there is a legal right to compensate the current debts and receivables with the tax.

**o. Revaluation reserve**

The revaluations are performed with sufficient regularity so that the accounting value would not substantially differ from the one which would be determined using the fair value.

In this respect, the company performed the revaluation of the tangible assets – group of constructions and real estate investments with independent assessors as of 31 December 2006, 31 December 2009, 31 December 2012, 31 December 2013, 31 December 2016 and 31 December 2019. On December 31, 2019 were revalued tangible, „Construction” group 212 and 2112 „Landscaping”.

Revaluation effects were accounted for using the remaining unamortised value revaluation process which involves the cancellation of accumulated depreciation to bring the construction to the net book value and added value recording. Revalued amount is the fair value at the date of the revaluation less any subsequent accumulated amortization. (Note 11)

The difference between the value resulted from the revaluation and the net accounting value of the tangible assets is presented at the reserve from revaluation, as a distinctive sub-element in „Ownership equity”.

If the result of the revaluation is an increase as compared to the net accounting value, then it is treated as follows: as an increase of the revaluation reserve presented within the ownership equity, if a prior decrease was not acknowledged as an expense related to that asset or as an income which would compensate the expense priory incurred for that asset.

If the revaluation result is a decrease of the net accounting value, this is treated as an expense with the entire value of the depreciation when in the revaluation reserve no amount related to that asset is recorded (revaluation surplus) or a decrease of the revaluation reserve with the minimum between the value of that reserve and the value of the decrease, and the potential difference which is not covered is recorded as an expense.

**NOTES TO THE INDIVIDUAL INTERIM FINANCIAL STATEMENTS ACCORDING TO IFRS****NOTE 3. Significant accounting policies (continuation)**

The revaluation surplus included in the revaluation reserve is transferred to the reported result when this surplus represents a gain. The gain is considered as performed when the asset for which the revaluation reserve was constituted is derecognized. After the date at which the transition to IFRS is performed any increase or decrease of the fair value after the revaluation will be acknowledged in the statement of comprehensive income.

**p. Earnings per share**

The basic earnings per share are computed through the division of the net result assigned to the ordinary shareholders at the average rate of the ordinary circulating shares during the period.

**NOTE 4. Settlement of the fair value**

The just amount is the price on the main market or on the most advantageous market, which could be obtained for the sale of asset or the transfer of payable, after which the transaction and transport costs were taken into account. The factors that the entity must take into account for the evaluation of just amount are: asset or payable that is evaluated, market, market participants, price.

There are specific mentions for the non-financial assets, payables, capital instruments and financial instruments.

For an evaluation on just amount, it is necessary that the entity establishes the adequate evaluation techniques, taking into account the available data for the conclusion of input data that represent the hypotheses, which the market participants would have used for the establishment of the value of asset or payable and the classification level of input data in the hierarchy of just amount.

Certain accounting policies of the Company and requirements related to the presentation of the information need the settlement of the fair value both for the assets and financial debts, as well as for the non-financial ones. Upon the assessment of assets or debts at the fair value, the Company uses if possible, information which can be observed on the market.

The hierarchy of the fair value classifies the input data for the assessment techniques used for the assessment of the fair value on three levels as follows:

- Level 1 – rated price (non-adjusted) on active markets for identical assets or debts which the entity can access upon the date of the assessment;
- Level 2 – input data, other than the rated prices included in level 1 which are noticeable for an asset or debt, either directly or indirectly;
- Level 3 - non-observable input data for the asset or debt.

If the input data for the assessment of the fair value of an asset or a debt can be classified on several levels of the fair value hierarchy, the assessment at the fair value is fully classified on the same level of the fair value hierarchy as an input data with the lower level of uncertainty which is significant for the entire assessment. The Company acknowledges the transfers between the levels of the hierarchy of the fair value at the end of the reported period, in which the modification occurred. If the case, the additional information with respect to the hypothesis used for the settlement of the fair value are presented in the notes which are specific to the respective asset or debt (intangible assets, real estate investments).

The Company proceeds to the reassessment of the intangible assets which are within its patrimony with sufficient regularity so that they will be presented in the financial statements at a fair value.

**NOTE 5. Incomes**

	<u>30.09.2024</u>	<u>30.09.2023</u>
Asset sales	25,135,535	32,626,043

Income tax paid up due at the end of the period	-	275,648

**NOTE 11. Tangible assets**

Tangible assets 212 „construction group” were revalued at 31 December 2006, 31 December 2009, 31 December 2012, by independent evaluators, according to regulations in force at the time. Evaluations were based on fair value, being the nearest transaction and the inflation rate from that date, taking into account their physical condition and market value.

On 31.12.2013 the last revaluation of the tangible assets group 212 “Constructions” and the land which exist within the patrimony at this date occurred. The depreciation was re-addressed proportionally with the modification of the gross accounting value of the asset, so that the accounting value of the asset, after the re-valuation, will be equal with the revaluated value. The scope of the evaluation of the land was the estimation of the market value in order to be registered in the accounting evidence at the fair accounting value. The fair value of the lands was determined based on the comparable market method, which reflects the recent transaction prices for the same properties.

The evaluation method applied to the ”building” group is the direct comparison method. The revaluation envisaged the adjustment of the net accounting value of the elements included in these categories on their fair value considering their physical status and their market value.

All buildings and lands are identified on their revaluated value, this value representing the fair value at the date of the revaluation minus any priory accumulated depreciation and any losses acquired by means of depreciation.

The review was conducted according to International Valuation Standards, by Ms. Lațcu Nicolae, expert qualified professional appraiser authorized member of ANEVAR. The fair value was settled on each asset in gross revaluated values, and as their related depreciation.

On December 31, 2016 were revalued tangible, „Construction Group 212” and 215 „real estate investments”. Revaluation effects were accounted for using the remaining unamortised value revaluation process which involves the cancellation of accumulated depreciation to bring the construction to the net book value and added value recording. Revalued amount is the fair value at the date of the revaluation less any subsequent accumulated amortization.

Valuation method applied under 'construction' is the replacement net cost method. The review was conducted according to International Valuation Standards 2016 by Mr. Dan Rusu Zaharia, expert qualified, professional appraiser authorized member ANEVAR. It was determined the fair value of each asset. The revaluation surplus was recognized as revaluation reserve in equity.

At 31 December 2016, based on internal analyzes, the Company's management estimates that the net carrying amount approximates fair value of the land. In 2017 and 2018, no tangible assets were evaluated. On December 31, 2019 were revalued tangible, „Construction” group 212 and group 2112,, Landscaping”.

**NOTES TO THE INDIVIDUAL INTERIM FINANCIAL STATEMENTS ACCORDING TO IFRS**

**NOTE 11. Tangible assets (continuation)**

Revaluation effects were accounted for using the remaining unamortised value revaluation process which involves the cancellation of accumulated depreciation to bring the construction to the net book value and added value recording. Revalued amount is the fair value at the date of the revaluation less any subsequent accumulated amortization.

Valuation method applied is the replacement net cost method.

The review was conducted according to International Valuation Standards 2018 by Mr. Dan Rusu Zaharia, expert qualified, professional appraiser authorized member ANEVAR.

It was determined the fair value of each asset. The revaluation surplus was recognized as revaluation reserve in equity.

At 31 December 2019, based on internal analyzes, the Company's management estimates that the net carrying amount approximates fair value of the land. In 2020 and 2021 the tangible assets were not evaluated (land and group 212, "Buildings")

In 2022 and 2023, tangible assets were not evaluated (land and group 212, "Constructions"). Considering that there are no major changes in the volume of tangible assets (land and group 212 "Constructions"), the management of the Company considers that it is not necessary to evaluate the tangible assets, estimates that the net book value of the land and group 212 "Constructions" approximates the value just.

On 30.09.2024, the company registers "Tangible fixed assets in progress" in the amount of 14,240 representing works in progress.

Intangible assets on September 30, 2024, at the net value of 90,715 (January 01, 2024: 117,825), represent the un-amortized part of used licenses and informatics programs. The amortization period of intangible assets is 3 years.

**NOTE 13. Inventories**

	<b>30.09.2024</b>	<b>01.01.2024</b>
Raw materials and materials	3,127,573	3,436,076
Manufacture in progress	571,282	1,548,837
Finite products	3,225,199	3,195,761
Advances for stocks	49,929	530
<b>Total inventories</b>	<b>6,973,983</b>	<b>8,181,204</b>

For the establishment of cost on the outflow of the administration of materials, the company uses the first in, first out method (FIFO). The cost of stocks recognized as expense on September 30, 2024 year with respect to the permanent operations was 5,557,583 (2023: 11,395,530).

The company did not register discounts of the accounting value of stocks recognized as expense during the period.

**NOTE 14. Trading and associated receivables, other receivables and advance expenses**

	<b>30.09.2024</b>	<b>01.01.2024</b>
Trading receivables	5,097,822	6,507,432
Advances paid	16,778	-
Current profit tax	34,634	-
VAT to be recovered	78,247	83,168
Non-exigible VAT	28,150	13,775
Other receivables	6,501	39,372
<b>Total</b>	<b>5,262,132</b>	<b>6,643,747</b>
Expenses registered in advance	114,987	30,707

The trading receivables of the Company are expressed by the following foreign currencies:

<b>Foreign currency</b>	<b>30.09.2024</b>	<b>01.01.2024</b>
Euro equivalent in lei	4,983,663	6,504,865
LEI	114,159	2,567
<b>Total</b>	<b>5,097,822</b>	<b>6,507,432</b>

The trade receivables are registered on the rated value and are described in the analytical accountancy per each natural or legal entity. The receivables in foreign currency were evaluated based on the enforceable rate of exchange at the end of the financial year, and the differences of the exchange rate were recognized as incomes or expenses of the period.

## S.C. CONTED S.A.

### Individual interim financial statements on September 30, 2024, according to IFRS (all the amounts are in LEI, unless otherwise provided)

#### NOTES TO THE INDIVIDUAL INTERIM FINANCIAL STATEMENTS ACCORDING TO IFRS

#### NOTE 14. Trading and associated receivables, other receivables and advance expenses (continuation)

The structure by aging of trade receivables on the date of 30 September 2024 was:

- non past due, amounting 2,567,879
- outstanding debts between 0 and 30 days, amounting 1,392,547
- outstanding debts between 31 and 60 days, amounting 80,270
- outstanding debts between 61 and 90 days, amounting 465,617
- outstanding debts between 91 and 180 days, amounting 359,774
- outstanding debts between 181 and 210 days, amounting 78,725
- over one year, amounting 153,010

The Company considers that the recognition of an adjustment for depreciation for the outstanding trading receivables is not necessary, because the sold of trading receivables corresponds to the customers with a good payment history. The advance expenses amounting 114,987 on 30.09.2024, (30,707 la 1 January 2024) mainly represent insurance premiums for civil liability insurances for administrators, insurance for the transport facilities, local taxes related to fourth year 2024 and different subscriptions.

#### NOTE 15. Cash and cash equivalent

	<u>30.09.2024</u>	<u>01.01.2024</u>
Cash of the cash office	159	3,944

From the provision for short-term employee benefits constituted on 31.12.2019 in the amount of 297,000 for 2,580 days of unpaid leave for 2019, on 30.09.2024 remained 8 days with the amount of 801, related to persons on parental leave.

From the provision for short-term employee benefits constituted on 31.12.2020 in the amount of 255,508 for 2,114 days of unpaid leave for 2020, on 30.09.2024 remained 1 day with the amount of 107, related to persons on parental leave.

From the provision for short-term employee benefits constituted on 31.12.2021 in the amount of 458,562 for 3,865 days of unpaid leave for 2021, on 30.09.2024 remained 20 days with the amount of 2,188, related to persons on parental leave.

From the provision for short-term employee benefits constituted on 31.12.2022 in the amount of 489,980 for 3,634 days of unpaid leave for 2022, on 30.09.2024 remained 49 days with the amount of 6,001.

From the provision for short-term employee benefits constituted on 31.12.2023 in the amount of 543,054 for 3,157 days of unpaid leave for 2023, on 30.09.2024 remained 413 days with the amount of 77,107

On 30.09.2024 there were provisioned incomes of 500,296 as a result of the holiday leave for 2022 and 2023. Thus the provision was diminished and on 30.09.2024 the remaining provision was in the amount of 89,518.

**NOTE 20. Risk management**

The main purpose of risk management is to help understanding and identifying the risks which the Company is exposed to, so that they can be anticipated and managed as not to affect the efficient fulfillment of the Company's objectives.

Since the elements of trade receivables and payables are part of the financial instruments, the Company's management reveals that understand and know the information requirements of IFRS 7 regarding the nature and extent of risks arising from financial instruments and their importance.

The Company's strategy regarding the management of significant risks provides a framework for identifying, assessing, monitoring and control of these risks, in order to maintain them at acceptable levels depending on the company's risk appetite and its ability to cover (absorb) these risks.

The objectives of the strategy related to the significant risk management are as follows:

- determination of significant risks that may arise during the normal course of business of the company and the formalization of a robust framework for their management and control, in line with the objectives of the overall business strategies of S.C. CONTED S.A.. This can be achieved by adopting the best practices, adapted to the size, risk profile and strategy of the company;
- developing the risk mapping to facilitate their identification, to structure them and to rank them depending on the possible impact on the current activity;
- promoting a culture of awareness and risk management in all company structures.

Within S.C. CONTED S.A., the risk management activity is aimed to fulfill these objectives. Within the process of risk management, the company aims to develop policies, standards and procedures by which it can identify, assess, monitor and control or mitigate the significant risks. This framework will be reviewed periodically, according to the risk profile and risk tolerance, as well as due to the changes in legislation, variations of the internal or external regulations. To this end, the identification and assessment of risks that may arise in the conduct of significant activities is an ongoing activity.

The whole personnel must understand the risks that may arise during the performance of the activity, as well as the responsibilities incumbent related to the management of these risks. Thus, the company must provide, maintain and continually develop a robust and consistent risk culture, in all structures.

**a) Risk related to capital**

The management of the risk related to the capital is aimed to ensure the ability to work under good conditions by optimizing the capital structure (equity and payable). Within the analysis of the capital structure the cost of the capital and the risk associated to each class is taken into account.

**S.C. CONTED S.A.****Individual interim financial statements on September 30, 2024, according to IFRS  
(all the amounts are in LEI, unless otherwise provided)****NOTES TO THE INDIVIDUAL INTERIM FINANCIAL STATEMENTS ACCORDING TO IFRS****NOTE 20. Risk management (continuation)**

In order to maintain an optimal capital structure and an appropriate level of payable, the company proposes to its shareholders an appropriate dividend policy.

The Company's objectives in managing capital are to ensure the protection and the ability to reward shareholders, to maintain an optimal capital structure to reduce capital costs.

The Company monitors the volume of capital raised on indebtedness. This rate is the ratio between net debt and total equity. Net debt is calculated as total debt net of cash.

Total capital is calculated as equity plus net debt.

	<b><u>30.09.2024</u></b>	<b><u>01.01.2024</u></b>
Total liabilities	9,045,517	11,406,855
Cash and cash equivalents	1,334,254	1,570,808
Total equity	10,542,823	10,850,428
Net debt indicator	0.73	0.91

**b) Currency risk**

Within the business of the company, one of the risks that are frequently met is the currency risk, which is the possibility of incurring financial losses arising from variations of the rates of exchange and/or correlations between them.

On the other hand, the depreciation of the national currency against major currencies is determined by the intensity of domestic policy which has negative consequences on the financial markets, on the exchange rate and on the stock exchange. The receivables and payables of the company are recorded into the accounting books of the company at their nominal value. The receivables and liabilities in foreign currencies are registered into the accounting books in lei, at the rate of exchange in force at the time of operation performance.

The differences in the rate of exchange between the date of registration of receivables and of the payables in foreign currency, the date of collection, respectively the date of payment thereof shall be recorded as financial income or expenses, as appropriate.

The receivables, payables and availabilities in foreign currency were revalued at the end of each month.

Which expose the Company to currency risk is EUR. The resulting differences are included in the Statement of comprehensive income and does not affect cash flow until the liquidation of the debt. The company has at September 30, 2024 cash and cash equivalents, trade receivables and trade payables in foreign currencies.

The exchange rates of the national currency against the EUR and USD, calculated as the average rate recorded during the reporting period and the previous year and the exchange rates communicated by the National Bank of Romania on the last day of the financial were:

Currency	Medium course		Spot rate at the reporting date	
	<b><u>30.09.2024</u></b>	<b><u>01.01.2024</u></b>	<b><u>30.09.2024</u></b>	<b><u>01.01.2024</u></b>

<b>Total</b>	<b>(4,598,715)</b>	<b>(3,663,139)</b>	<b>(8,261,854)</b>

**Sensitivity analysis of currency risk**

The Company is exposed mainly to EUR. The table below details the Company's sensitivity to an increase / decrease of 5% in RON against those currencies. 5% is the sensitivity rate used by management reports on currency risk. The sensitivity analysis only includes outstanding monetary items denominated in foreign currency conversion into RON shows the change at the end of the reporting period due to a change in the exchange rate by 5% compared to the exchange rate prevailing at the time. A positive number indicates an increase in earnings and equity occurs where the functional currency to currency.

<b>Profit/(Loss)</b>	<b>172,619</b>	<b>-</b>	<b>172,619</b>

**c) Liquidity risk and cash flow**

This risk results from the incapacity of the company to meet its payment liabilities at any time on short term. On the other hand, the liquidity risk is caused by increased taxation. When we talk about inland revenue, we are talking first about predictability, and the business environment is exposed to sudden changes related to the tax matters (modification, apparition of new taxes, and contributions).

Within S.C. CONTED S.A., the liquidity risk is reduced, and during the period there were no long-term credits contracted or loans with state guarantees.

**d) Price reducing risk**

S.C. CONTED S.A. is exposed to a risk of reducing the prices due to cheaper labor in other countries, changes in the economic, social and political.

**e) Risks of lohn system**

Mainly S.C. CONTED S.A. produces textiles using the lohn system (CM – cut and make) but it can produce textiles with its own fabrics (imported from France, Italy, Spain, Turkey etc.) and auxiliary, at the customer's request (CMT – cut-make-trim).

Over the time, S.C. CONTED S.A. may be more or less affected by the changes of what we call environment or external factors, certain factors of this environment may adversely affect the activity of this company. These political, legal, economic, social and cultural factors can have a negative impact, therefore creating a failure transposed in high response time into the market and delays in delivery.

## S.C. CONTED S.A.

### Individual interim financial statements on September 30, 2024, according to IFRS (all the amounts are in LEI, unless otherwise provided)

#### NOTES TO THE INDIVIDUAL INTERIM FINANCIAL STATEMENTS ACCORDING TO IFRS

##### NOTE 20. Risk management (continuation)

Political and legal factors can influence the company's business that operates according to the lohn system by imposing regulations that may be related to import-export of goods, economic factors that influence the economy of a country which can also influence the purchasing power.

##### f) Political and legislative risk

Legislative changes related to the textiles market lead to a legal risk that must be managed at all times. The company's effort to adapt constantly to varying legislative requirements can generate significant additional costs and potential future amendments to the legislative framework could have negative effects on the activity and profitability of the company.

##### g) Risks to losing certain markets (contracts)

The decline in the market price of the competing products lead to a non-competitive position, the loss of the partner's interest for the Conted products, as a result of the introduction of new products on the market, lead to the loss of some markets (contracts).

##### h) Operating risks

One of the serious problems that S.C. CONTED S.A. is currently facing is that related to the recruitment and employment of staff specialized in textiles. Failure to attract a sufficient number of suitably qualified personnel, migration, incapacity to adapt to the labor market, and increased personnel costs are risks that might affect the work done by the issuer.

Among the uncertainty factors that could affect the Company's business we can mention:

- producing clothing that can stand on the circuit and on stock for more than one month, due to delay of supply with raw materials and auxiliary materials from customers;
- temporary suspension of activity due to unexpected circumstances;
- increasing the minimum gross salary guaranteed for payment, which will decrease the attractiveness of light industry;

The increase the minimum gross salary guaranteed for payment at the level of the country of the workers in the textile industry, may lead to loss of contracts by clothing factories in Romania and they are transferred to countries with cheaper labor force. The related industry is losing its competitiveness year after year, and the lohn system "migrates" into cheaper countries with much lower wage levels.

S.C. CONTED S.A. implements a constant supervision of operational risks in order to take measures to keep them at an acceptable level, which does not threaten its financial stability, the interests of the creditors, shareholders, employees, and partners.

##### NOTE 21. Associated parties

The Company has no share capital in other companies.

##### Trades with the management key staff

##### Loans granted to managers

The company did not grant advance, credits or loans to the management board, management and supervisory members, in the year ended 30 September 2024.

##### Benefits of the management key staff

The salary rights of the General Manager are established by the Management Board according to the legal provisions and the commission agreement. The remuneration of the Management Board members are approved by the General Assembly of the Shareholders.

Granted salary rights
